# CLEAN ENERGY FOR ALL EUROPEANS – role of DSO

Annika Korzinek, European Commission  
Representation in Sweden

***"CLEAN ENERGY FOR ALL EUROPEANS"***

***ENERGY EFFICIENCY***

***ENERGY UNION GOVERNANCE***

***RENEWABLE ENERGY***

***NEW MARKET DESIGN***

## NEW MARKET DESIGN

### A FAIR DEAL FOR CONSUMERS

#### BETTER INFORMED

- Access to fit-for-purpose smart meters
- Certified price comparison tool
- Clearer energy bills

#### EMPOWERED

- Entitle individuals and communities to generate electricity and to consume, store or sell it back to the market
- Easier switching conditions
- Reward demand-response

#### PROTECTED

- Monitoring of energy poverty (governance)
- Information on alternatives to disconnection
- Secured electricity supplies
- Sound data management

# MARKETS FIT FOR PURPOSE

COMPETITIVE ENERGY MARKETS ARE AT THE HEART OF A COMPETITIVE ECONOMY

## Strengthened short-term markets

Increase **cross-border trading opportunities** over shorter timeframes (intraday and balancing markets)

**Reward flexibility** for generation, demand-response and storage

Allow **prices to show real value** of electricity in terms of time and location (scarcity pricing)

## Competitive retail markets

**Flexible network** management

**Regulated prices** phased out

**Fair market access** for new market players such as new service providers

Distribution operators as neutral but **active market facilitators**

## Level-playing field among sources

Rules on **priority access** and dispatch

**Curtailment** rules

**Remuneration** on equal terms on market principles

Extended **balancing** responsibilities

## Regional cooperation

**Regional Operation Centres (TSOs)**

Common rules on **crisis prevention**

European framework for capacity remuneration

New tasks for **ACER**
